Board Member Spotlight
Kevin Miller –

Kevin grew up in Fredonia, then attended Kansas State University. He was there when football was not talked about fondly. While there he earned a Construction Science degree. After working for A-Lert Corporation, based in his hometown, along with a friend he purchased a canopy company (covers gas pumps) in Indiana. Which was eventually merged with A-Lert…those Kansas roots kept calling.

Ready to do something different, Kevin left to do business development and consolidations. The first development project was converting a rundown driving range into a target practice facility. It was beautiful…and was the most money he had lost up to that moment in time. That was followed with some successes, and a few more busts.

Three years ago Kevin joined Oil Patch Pump and Supply, Inc.…that Kansas draw was too much to fight! At Oil Patch he oversees sales and credit. He enjoys the industry, the people, and being part of it.

Kevin is married to his wife of 32 years, Melissa and they have two grown children.

He looks forward to working with EKOGA to help make a contribution to the industry.

Randy Trimble –

Randy , is the managing member of Trimble Maclaskey Oil, LLC. He was raised in Gridley and is a second generation oil producer and banker.

After Gridley High School and Washburn University, he started his banking career with Commerce Bank in Kansas City, then later with United Missouri Bank. Randy moved back to Burlington in the late 80's to help run a family owned bank. That bank was later sold and he started being a full time oil and gas operator. Thru mergers and partnerships, Trimble Maclaskey Oil was formed in 2004. They produce oil in several counties in Eastern Kansas.

As an oil producer and banker, Randy and his family realize how important our industry is to the state and nation. He looks forward to do his part in assisting EKOGA steer to the future. Randy lives in Burlington with his wife Angela, and they have 3 children; Walker and his wife Carissa, Kennedy, and Brennan.
